PHOTO & VIDEO

I started photographing very young, my first trip abroad at the age of 13, a study trip to Hastings, for what I saw as a distant land, England. The minolta x300 of my father with 2 lenses and me changing the rolls of film for everyone, including the course leaders. Then the digital, a hatred immediately reciprocated by a new lymph and from 2019.02.09 the opening of the VAT number to try to make photography my new life. I love nature and the outdoors.

I am specializing in drones;

I have a technical education I am an aeronautical expert as a scholastic education, but due to my father and my uncle from Venice I have always been one step away from art and photography.

I insert some international recognition:

2022 FIOF Awards Gold Winner Cat. Nature Professional Competition

2022 FIOF Awards HM Cat. Nature Professional Competition

2021 TIFA HM winner Fine Art Professional

2019 WPC Italy Nature section finalist

Finalist Sony Award 2018

2018 TIFA Silver Winner Nature Trees

2018 OneEyeLand Bronze Landscape

Winner Honorable Mention IPA 2017 Landscape Honorable Mention IPA 2016 Night Photography

I have been published in several local magazines, in Landscape Photography Magazine, on L'Oeil de la Photographie and several online magazines.

In 2020 I followed the work as a director and cameraman for a documentary about football in my city: REGIA 19/20 the film here on the link:
